

CorrosionX

Blast Off

Product Description

CorrosionX Blast Off is a fast-acting, non hazardous concrete and rust remover.

BLAST OFF Rust & Concrete Remover is a breakthrough in the nonhazardous removal of unwanted concrete residue and rust. It will not harm materials such as iron, steel, copper, brass, plastic, rubber or vinyl. Also effective for the removal of 'bleeding rust' from vehicles and painted equipment.

Works quickly like an acid to remove dried concrete, but it does so without many of the drawbacks associated with acid-based products. Unlike traditional acid-based products, Blast Off will not harm paint, rubber or plastic, and it does not give off harmful fumes. It's much gentler on your drivers ! Also effective for removing rust.

Very fast acting. Removes 3 mm of concrete

Blast off begins working immediately, rust removal can be accelerated by brushing the treated surface with a soft bristle brush.

- Safe on skin
- No harmful fumes
- No acid
- Will not harm vehicle paint
- Will not harm wiring

Application Suggestion

Spray, fog or brush on to trucks, forms or concrete equipment.

Agitate surface with a soft bristle brush to facilitate quicker removal.

Direction of use

May be applied full strength or diluted up to 3:1 with water for spraying large areas. The proper dilution ratio depends upon the thickness of rust or concrete to be removed.

Dipping

Dilute 1 part of product with 3 parts of water. Remove any grease or oil first, then submerge metal in a plastic or rubber dip tank. Steel tanks may also be used if they are coated with epoxy paint or lined with vinyl.

Safety brief / precautions

While the product is safe on skin, we recommend wearing gloves and eye protection when using and handling the product. Do not swallow. Keep away from children.
