

# BIO SLIDE™

## READY-TO-USE CONCRETE REPELLENT

**BIO SLIDE** is a premium concrete repellent that facilitates easy removal of concrete from equipment as well as forms – minimizing voids, bug holes and build-up. Designed to be applied with a single thin coat, Bio Slide reduces waste and increases productivity.

- Advanced formula
- Non-staining; will not stain or discolor
- No unpleasant odor
- Easy application
- Will not clog spray tips
- Does not wash off with water
- Helps ensure the highest quality architectural concrete finishes by minimizing voids and bug holes
- Great for concrete ready mix trucks, pumpers screeds and other paving equipment to prevent adherence and build-up of concrete

### INDUSTRIES

Concrete  
Construction  
Municipalities

### USES

Architectural grade form release  
'Behind-the-ring' concrete repellent / protective coating for ready mix trucks and other concrete equipment  
Paint gun coating (prevents paint adhesion)
