

CRETE D-SOLVE™

MULTI-MODE CONCRETE CONVERTER / REMOVER

Crete D-Solve is the first concrete remover that works at your pace! Spray it on and agitate with a brush for immediate concrete removal, or leave it on and Crete D-Solve will convert concrete into mud for easy removal. Effective for use on trucks, forms and all your concrete equipment. It will not harm materials such as iron, steel, decals, paint, plastic, rubber or vinyl. Effectively removes 'bleeding rust' from most vehicles and painted surfaces. Ideal for cleaning forms, pavers, portable mixers, swimming pools, tools, windows – anywhere you can find cement, gunite and mortar.

- Economical – dilutes with up to 3 parts water for cost-effective application
- Compatible with most paints, steel, rubber, plywood and fiberglass
- High potency formula dissolves concrete, mortar, calcium, lime and scale
- No smoke, no fumes - can be used indoors
- Contains no hydrofluoric, sulfuric or phosphoric acids
- Rinse and go technology – Removes the heaviest deposits yet requires no neutralizing
