

RUST REMOVER™

RUST ELIMINATOR AND METAL CONDITIONER

Rust Remover is a breakthrough in the removal of unwanted rust. Eliminates rust from iron and steel without harmful fumes. Begins working immediately to transform rust into a gray/black iron phosphate, which interrupts the rusting process. When the rust is gone, the chemical transformation has occurred, and the surface is prepared for a protective coating such as paint or other rust preventative coatings. It is compatible with many surfaces and will not harm glass, hoses, decals, plastic, rubber, vinyl and paints. Effective for use on most painted surfaces for removal of surface rust.

- High potency formula, can be used indoors
- Removes rust without smoke or fumes
- Prepares metal surface for paint & increases lifespan of paint
- Compatible with most vehicle paints, decals, wiring and hoses

Removes Rust and Prepares Metal for Treatment

Great For

- Removing rust from cars, trucks, boats, RVs, motorcycles and ATVs
- Industrial equipment
- Road equipment
- Lawn furniture
- Tools
- Restoration of metal parts

Product Number: 22103
